

It's Painless!

Joining the Mid-America Lumbermens Association Multiple Employer Plan (MEP*) 401(K) retirement savings plan is simple, easy and pain free.

The Mid-America Lumbermens Association 401(K) plan may be just the tool you need to get all the advantages of a complete retirement savings plan with a well-diversified portfolio of investment options.

By leveraging the combined buying power of all MLA members, the MLA 401(K) plan provides each adopting employer with its own customizable retirement savings plan at a reduced cost, and added benefits of no-hassle plan installation, offloading of fiduciary liabilities, and limited administrative responsibility.

If your business has only a few employees, you may think you're too small or it's too expensive to offer a complete 401(K) retirement savings plan. Businesses with as little as two or three employees may actually profit from having a 401(K) retirement savings plan. ***How does around \$13 a month for a full service retirement savings plan sound?**

For those MLA members that already have a retirement savings plan, the MLA offers a complimentary review of your current plan to answer the following:

- Do you have the right plan for your company? Is your plan constantly "Top Heavy"? Are you missing out on additional benefits?
- Is your current plan operating efficiently? Are there ways to reduce costs and improve the plan features and benefits?
- How is your plan service level? Is there financial education available to plan participants? Do plan participants have easy access to their accounts and the plan administrator?
- What is your fiduciary liability? Are there protective measures available to reduce your exposure?
